

Coaxial Drop Elbow for Product and Vapor

FEATURES & BENEFITS

The Coaxial Drop Elbow is designed with the operator in mind. It is lightweight and durable with a low pressure drop to reduce delivery times.

- Lightweight aluminum construction
- High flow rate
- Sight glass for product visibility
- Product connection (3" or 4" cam & groove) is located below vapor connection (3" cam & groove) and reduces stress on adaptor, piping and connection to tank
- Two piece construction allows change of connector size and weight
- Quick and easy to rebuild
- Most parts interchangeable with other Emco Drop Elbows
